Customer Reviews

Having been a great admirer of people like Bear Gryles, I like to read books on survival tactics. This book gives great ideas for building your own survival safe home . It's a wonder at what can be used, very informative book.

Very general, no illustrations, and I'm not sure that I gained any new info. I don't think that "latest" belongs in the title.

lots of information. Good instructions. We will have to try a few of these around our property to get some experience.
