Customer Reviews

There are so many typos and grammatical errors in this book that I cannot read it. I read through four chapters, hoping it would improve, but no luck. I honestly thought I was being "punked." How does something like this get published?

This book is... just not good. It's wildly unspecific and very vague. If you're looking for real information about the Atkins diet I would look elsewhere.

This is less than 1 star. The typos and misspellings in this book made it impossible to read and understand. It's junk.

Poorly written. Many grammar errors. Poor sentence structure, repetitive, and lacks continuity. Don't waste your money.

Not worth the money, learned very little about the Atkins's Diet

This book is written and organized very poorly. Seems as if written in a rush, and underwent a poor editing process as well. Meal plans are inconsistent with a random collection of recipes. If you are interested in the Atkins diet, there are better books out there.

I've been searching for a good resource book that teaches Atkins Diet and I am glad that I found this wonderful book. It is highly valuable and gave me great inputs. A must read for anyone looking to learn about Atkins Diet.

I've tried so many diets and so far I like Atkins diet the best. In this book you can find so much about it and also how to swap from one phase to another and when to do it! The recipes that you'll find here are soo delicious and I love them all! Also, as a bonus you'll get few books on diets and other recipes. Enjoyed it!
