## **Customer Reviews**

This book makes me feel like a girlfriend is chatting with me over the phone about delicious food. I'm sure each item has to be charged with intent but the magicL side is never mention, only delicious recipes, so look at this as a "paula deen" cookbook. #ijs

Well butter my biscuits and call me a believer! And being from the north, that's saying something! This cookbook has the most delicious recipes and they don't require extraneous gadgets or special talent - I cannot wait to start right in on them. Love the little opening tidbit on each one- as if the Cook is speaking directly to me. I always appreciate recipes and food ideas that can be put together easily and won't require trips to 3 grocers to gather the ingredients. Chances are, it may not even require an additional grocery stop as many are on hand. The title of the recipes

is a smile in themselves. Who can possibly resist trying Whoo Doggie Whiskey Tea?! The fact that these may be a "magical" is an added bonus. Great herbal information and am pleased that the author included a comprehensive Menu Planner at the end. Looking forward to the remainder of the series! Excuse me for now, as I'm feeling some Come to Me Cilantro Chicken headed my way!
